THE CONTRACT
COLLECTION

our focus

For the past 50 years, three things have set us apart from any other company in the conference and banqueting market: **'Quality, Innovation and Value for Money'**.

This focus has enabled us to supply time and time again, some of the best hotels in the world, with the highest quality products, incorporating the best comfort and design, all at a price that you can afford. If you are attending a presentation in an auditorium, attending a conference or a dining function, if it's Burgess furniture your comfort will be assured.

Jeremy Burgess ~ Chairman

heritage

It started with a bicycle handlebar in 1946 when Jeremy's father, Gerald, founded the GB Cycle Company. Spotting a growth opportunity, he soon steered the company towards the burgeoning contract furniture market, adapting the bending, welding and aluminium finishing expertise of the company to the design and manufacture of quality conference and banqueting furniture. And the rest, as they say, is history...

partnership

Listening to our customers needs and then working together to create bespoke design solutions has always been key to our success. The company has established an industry wide reputation as an innovator, a great example of which is the development of the Allday™ ranges of chairs, ensuring that the user can be comfortable from early morning to last thing at night. The Vario with it's superbly comfortable lumbar support and flex back has become our number one best seller.

The very first European manufacturers of the aluminium stacking banquet chair! That was our first innovation and since then we have continued to be at the forefront of the ideas that have helped set the industry standards. The nylon flock-coated banquet table, the versatile easy to store, flip-top conference table, ergonomics excellence awards for our Allday™ chair designs and a design excellence award for our Flair conference chair are just some examples of the standards of excellence that Burgess Furniture has achieved.

innovation

craftsmanship

Quality and craftsmanship go hand in hand. Some of our skilled workforce have been with us for over 30 years. Even today some chair models are still manually welded and polished to ensure that intricate and detailed designs are finished to the highest standards. Of course we have also introduced 21st century equipment such as robot welding, computerised fabric cutters and draw-string

upholstery techniques, ensuring that we are at the forefront of UK manufacturing capability.

Every design we make is FIRA tested to ensure it meets all the industry expectations and once in production our quality control department ensures every chair reaches the highest standard before receiving the GB hallmark stamp, the guarantee that the chair is a genuine Burgess quality product.

experience

Keele Hall's Salvin Room - Keele University

Our HQ, close to London's Heathrow Airport, features a permanent display of our entire product range as well as examples of commissioned bespoke furniture. We're always happy to welcome prospective clients and specifiers to our site for the guided tour of our showroom and manufacturing plant, but if that's geographically inconvenient, we have exclusive distributors throughout the world. Wherever you are, the chances are that there's a client's venue close by where our representatives can arrange for you to experience Burgess quality at first hand.

Alternatively you can view all our current table and chair ranges at www.burgessfurniture.com
